Final product

Backside Image

The above are images of barrel heads that we recently provided for Goose Island locally. These were developed from actual barrel heads - 22—23" diameter. The series of images indicate the progression of the process.

What differentiated this product from others barrel heads was that we used authentic barrel heads we brought in from Kentucky and our process was to a level that we were able to maintain a rustic look. The imperfections that you see on the logo was the effect that the client requested.
