

In our efforts to bring to our clients the newest and most unique products to consider for their promotional programs and marketing initiatives, we discover items that we find are hard to categorize in our normal scope of products. You will find these items in our 'WHAT WE FOUND' category.

Sometimes our 'WHAT WE FOUND' products are so unique that they can be used in a wide range of promotional categories. We will also include items that are found within the website but want to bring special attention to them due to the unique characteristics of the product itself.

This category will also include images from some of the factories we visit during production of our goods and others.
